Kodak Scan Station 730EX Plus Scanner

Powerful features.
Unlimited integration options.

It’s not what you put into your scanner, it’s what your scanner puts into your business

Get more valuable information into your business systems faster by capturing your information at the edge of your processes. **Kodak** Scan Station 730EX Plus Scanners deliver powerful features and integrations for streamlined customization, and scanning by more people in more places. Turn business-critical data into decisions quickly and seamlessly with simple network setup and robust remote management.

Set-up, access, and security simplified

An array of safer, smarter, speedy features make the **Kodak** Scan Station 730EX Plus ideal for today’s information challenges.

- Powerful security features – such as administration-level password protection – maintain accessibility for ad-hoc users
- Easy integration into the MICROSOFT ecosystem, plus automatic, ongoing installation of their latest security updates
- Easily port your WINDOWS 10 application to create your own custom scanning kiosk
- C lassify, organize, and search content efficiently with improved file naming
- Deliver data to applications automatically with built-in barcode reading

Truly user-friendly features

Get fewer mistakes and faster proficiency without the need for a separate PC.

- Find the functions you need quickly with a bright, easy-to- navigate touchscreen
- Integrated OCR engine lets users convert documents to text-searchable PDFs and deliver them to a variety of configurable destinations – all with a single touch on the scanner

1. Bright, easy to navigate touchscreen
2. Connect your scanner to network
3. Improved paper handling
4. Built-in barcode reading
5. Scanner designed for maximum uptime

Simple remote management By networking Scan Stations throughout your business, you spend less time visiting devices individually and more time on other tasks.

- Retain control of available features with administrator-managed functionality
- C onfigure and maintain all of your scanners from one place

Turn abstract information into dynamic data

The Scan Station 730EX Plus converts the information in your documents into a valuable digital resource.

- Improve communication by connecting the scanner to your network and pulling data directly into your business processes quickly and easily
- E ffortlessly send digital files to multiple destinations
- Streamline processes with improved paper handling

Protect your investment

Get the best possible performance from your scanners and software with a full range of service and support contracts available to protect your investment and keep productivity at peak levels. Along with the initial warranty, you can put Kodak Alaris knowledge to work for you, helping your **Kodak** Scan Station 730EX Plus Scanners satisfy your changing business process needs for years to come.

AT A HOSPITAL, documents are scanned into workflow from multiple remote sites. These sites don't have dedicated scanning staff, aren't controlled by the hospital, and this information is subject to HIPAA guidelines. Documents need to include appropriate metadata and must be searchable. To complicate matters, lab work results and other records of conditions and treatments must go to multiple locations in various formats – such as a physician who wants emails, a head nurse who prefers faxes to a nursing station, etc.

Multiple Scan Station 730EX Plus units are now in place to meet these mandates. To simplify scanning, users only need to gather documents, load them into the feeder, add voice notes as attachments (if desired), and push one button. Metadata, such as patients' Medical Record Numbers (MRN) and birth dates, are added by barcode and zonal OCR respectively. Now lab results, echocardiograms, and other records of varying sizes can be quickly scanned and sent. Desired file formats are easy to specify, HIPAA guidelines are met, document security transfer is assured, and all stakeholders receive paperwork in their desired format(s).

Kodak Scan Station 730EX Plus Scanner

Features	
Connectivity	10/100/1000 Base T and no host PC required
