Your Images, Only Better!

The best image possible
Brighter, sharper images that eliminate shadows caused by folds or wrinkles, thanks to our unique **Dual Light Illumination** technology.

A Perfect Page every time
No blur, no spots, just a clean, well-cropped image ready for your eyes. Some say, “even better than the original.”

Exceptional accuracy
Easily create searchable documents where every word can be found with up to 20% higher optical character recognition (OCR)* accuracy versus competitive devices.

A powerful OCR engine
Let our software do the heavy lifting. Get searchable PDF files created in over 90 languages to create documents that really make sense.

Unique Document Separation and Protection

Passive separation technology Our scanners vary the levels of resistance placed on the paper as it enters the feeding mechanism.

Active separation technology
The scanner’s unique **Active Feeding System** (AFS) uses reversing rollers that separate each page and lever arms to jog and straighten the paper before entering the scanner.

Safe document technology
Intelligent **ultrasonic sensors** monitor each piece of paper as it passes through the feeding mechanism, ensuring no original documents are missed.

Intelligent document protection
The scanner has a sensitive microphone that prevents damage to documents. When it hears paper crumpling the scanner immediately stops to minimize damage.

Smooth exit technology
Our **Controlled Stacking** technology adjusts paper speed and safely guides documents into the exit tray, ensuring neat and orderly document stacking every time.

Easy Operation and Scanning Automation

Designed to provide the most simple and intuitive scanning experience, the KODAK S2050/S2070 Scanners include a color interface for easy one-touch scanning and viewing device status.

One-touch workflows

Turn manual scanning tasks into automated workflows for maximum efficiency. Easily configure up to twenty (20) routine scanning tasks that are easily accessible on the scanner interface.
